SUBJECT: Monthly Performance Report of CAATS:  
Auditor-Controller, Human Resources, &  
CEO/Purchasing - Duplicate Vendor Payments and  
Other Periodic Routines

## Audit Highlight

We analyzed 14,594 vendor invoices paid in January 2009 amounting to about \$75 million and found 99.99% of the invoices were only paid once.

Of the \$75 million vendor invoices, we identified 2 potential duplicate payments made to vendors totaling \$3,991.

To date we have identified \$776,138 in duplicate vendor payments, of which **\$752,794** has been recovered.

## OBJECTIVES

Each month, the Internal Audit Department conducts a variety of performance reviews of vendor payment and payroll activity utilizing Computer-Assisted Audit Techniques (known by the acronym CAAT). Our objectives are to analyze the selected vendor payment and payroll data to identify:

1. **Duplicate Payments:** Duplicate payments made to vendors. This CAAT is performed monthly.
2. **Employee Vendor Match:** Employees that bought goods or issued contracts to themselves or a related vendor. This CAAT is performed periodically as needed.
3. **Retiree/Extra Help Hours:** Retirees working as extra help in excess of mandated hour limits. This CAAT is performed annually.
4. **Deleted Vendors:** Active vendors deleted from the Vendor Master Table which could be an indicator of inappropriate payments. This CAAT is performed monthly.
5. **Direct Deposits:** Multiple employee paychecks directly deposited to the same bank account which could be an indicator of inappropriate payments. This CAAT is being reintroduced this month and will continue to be performed monthly in the future.

## BACKGROUND

CAATs are automated queries applied to large amounts of electronic data searching for specified characteristics. We use a proprietary, best practices and industry recognized software product to help us in this process.

CAATs differ from our traditional audits in that CAATs can query **100%** of a data universe whereas the traditional audits typically test but a **sample** of transactions from the population.

Resulting exceptions or findings are forwarded to the appropriate department for validation and/or resolution. Depending on the department's review, the exceptions may or may not be a finding.

Often there is additional data needed to validate the exception that is only known at the department level. We also partner with the departments to identify internal control enhancements with the purpose of preventing future occurrences of the type of findings identified by the CAATs.

We are keeping the details of our process and the vulnerabilities identified to a general discussion because of the risks associated with disclosing specific details of our financial and accounting processes.

## SCOPE

This report details the CAAT work we performed in February 2009. Our analysis included a review of the following data:

- 14,594 vendor invoices totaling \$74,758,649 for potential duplicate payments.
- 103,839 vendors in the Vendor Master Table as of 2/4/09.
- 39,271 payroll direct deposit transactions processed for pay periods 1 (12/19/08 - 1/1/09) and 2 (1/2/09 - 1/15/09).

## RESULTS

For the month of February 2009, we found the following:

### ■ Objective #1 - Duplicate Payments:

We identified **2** duplicate payments made to vendors, totaling **\$3,991** or **.005%** of the **\$75 million** of vendor invoices processed during January 2009.

### Value-added Information

Based on the to-date recoveries of **\$752,794** from the duplicate vendor payment routine, these computer assisted routines have paid for themselves and are returning monies to the County that may otherwise be lost. To date, we have issued 81 monthly performance reports for the CAATs.

### ■ Objective #2 – Employee Vendor Match:

Our analysis of employee-vendor activity is in process; results will be reported at a later date.

- **Objective #3 – Retiree/Extra Help Hours:**  
Our review of working retiree activity is performed annually; we are currently in the process of analyzing FY 08-09 working retiree activity.
- **Objective #4 - Deleted Vendors:**  
Analysis performed with no findings noted.
- **Objective #5 – Direct Deposits:**  
Analysis performed with no findings noted.

See the Detailed Results section for further information.

## 1. Duplicate Payments (Objective #1)

We used a CAAT routine to identify potential duplicate payments made to vendors during January 2009.

### A. Results

We identified two (2) duplicate payments totaling \$3,991 or .005% of the \$75 million of vendor invoices processed during January 2009. We have communicated the duplicate payments to the Auditor-Controller. The Auditor-Controller continues to investigate all duplicate payments and is pursuing collection. Currently, the Auditor-Controller has a recovery rate of about 97% on these duplicate payments that we have brought to their attention since the inception of the CAAT routines.

The table below summarizes the duplicate payment activity to date:

CAAT Report	Total		Not Duplicates		Recovered		In Process

## B. Background

This CAAT routine concentrates on a sub-set of vendor invoices paid by the County that possesses certain common attributes. The sub-set excludes one-time payments (such as election worker pay, jury duty pay, etc.) as well as recurring payments (periodic payments to the same payee for the same amount such as welfare, family support, etc.).

During the month of February 2009, 14,594 invoices for \$74,758,649 were added to this data sub-set representing January 2009 transactions. Currently, the data sub-set includes 835,191 invoices totaling \$8,435,419,127.

The total data file from which the sub-set is derived includes 2,510,624 records totaling \$16,431,025,655.

Our prior research has indicated that the duplicate payments are typically caused by a compounded human clerical error.

## 2. Employee Vendor Match (Objective #2)

We used a CAAT routine to identify employees that share a similar address as a vendor. This may identify employees buying goods or issuing contracts to themselves or a related vendor.

### Status:

In prior months, we gathered the data for this routine. We are currently working with a consultant who helped us perform this routine. We are currently reviewing the output of the routine (potential employee vendor address matches). After our initial analysis is completed, we plan to provide the results to Human Resources for their evaluation as to whether any employee vendor conflicts exist in the matches identified.

## 3. Retiree/Extra Help Hours (Objective #3)

We performed an analysis of working retiree hours to identify retirees working as extra help in excess of mandated limits. Our criteria are 960 hours (maximum allowed for regular retirees) or 720 hours (maximum for early retirees) during the fiscal year (FY).

### Status:

This routine is performed annually. We are currently in the process of performing analysis of FY 08-09 working retiree hours.

## 4. Deleted Vendors (Objective #4)

We used a CAAT to identify vendors that have been deleted or removed from the Vendor Master List. For deleted vendors, we verify that there has been no recent activity for that vendor.

**Results:**

This CAAT was applied in February 2009 with no significant findings.

**5. Direct Deposits (Objective #5)**

We used a CAAT to identify multiple employee paychecks directly deposited to the same bank account in the same pay period. We review results to determine there has been no irregular direct deposit activity.

**Results:**

This CAAT was applied in February 2009 with no significant findings.
